MASTERED PROGRAMMING LANGUAGES

C, C#, Python, MySQL, HTML, CSS, JS, PHP

PROFILE

I am a dedicated Informatics student with a deep interest in Data Analysis, Full-Stack Web Development, and Game Development. I am passionate about transforming lines of code into functional solutions and interactive digital experiences. As a team player, I believe that strong collaboration and effective communication are key for completing complex projects efficiently. I am always eager to learn new technologies and contribute to a dynamic team environment.

PROJECTS

Travel Website Designing	Front-End Develoment
Database Systems Presentation Project	Process and analyze data
Game Development Final Exam Project	designing and programming games

ORGANIZATIONS

Perkenalan Prodi Informatika 2024 **Apr 2024 - Aug 2024**
Group PIC

Assisted Informatics freshmen in gaining a better understanding of the academic environment and expectations of the Informatics program. Provided guidance to help students become familiar with one of the core tasks of Informatics students by introducing website development as a practical learning activity. Mentored and supervised students in creating a website using Webflow, enabling them to understand basic web design concepts, structure, and workflow, while also facilitating communication and ensuring smooth coordination throughout the orientation program.

Mister & Miss UMN 2025 **Feb 2025 - Dec 2025**
Coordinated the Decoration Division for the Mister & Miss UMN 2025 program by planning, organizing, and supervising the overall event decoration.

Alunora 2025
(Corporate Social Responsibility of Student Executive Board & Young Student Executive Board UMN) **May 2025 - Dec 2025**

Documentation (photographer)
This event was organized by the campus Student Executive Board (BEM) as a platform to carry out social-oriented activities. The event consisted of three main programs: an exhibition featuring interactive activities for fundraising, a seminar focused on raising awareness and empathy toward others, and a visit to a nursing home to conduct activities and distribute donations. In this event, I was responsible as a photographer, responsible for capturing key moments and activities throughout the event. Produced high-quality visual documentation to support event reporting, promotion, and archival purposes. Coordinated with the committee to ensure important sessions were properly documented, while managing photography equipment and maintaining consistency in visual quality.
